## Course Details:

**Name of the course:** AWS Fundamentals: Going Cloud-Native

**certificate provider:** coursera     **duration:**7.2hrs

Today I have enrolled for “AWS Fundamentals: Going Cloud-Native” course in coursera of 7.2 hours duration. Today I have done with introduction to database.

The screenshot shows a web browser window displaying the Coursera course page for 'Introduction to Module 3: Databases'. The browser's address bar shows the URL: [coursera.org/learn/aws-fundamentals-going-cloud-native/lecture/V3Dv2/introduction-to-module-3-databases](https://coursera.org/learn/aws-fundamentals-going-cloud-native/lecture/V3Dv2/introduction-to-module-3-databases). The Coursera logo and the user's name 'Priya Nagari' are visible in the top navigation bar. The main content area features a video player with a man speaking, and the title 'Introduction to Module 3: Databases' is displayed above the video. Below the video player, there are buttons for 'Save Note', 'Discuss', and 'Download'. To the right of the video player, there is a 'Notes' sidebar with a 'Save Note' icon and a text area for taking notes. The Windows taskbar is visible at the bottom of the screen, showing the time as 22:19 on 24-07-2020.
