Online Test Details:

NO TEST

Course Details:

Name of the course: Data structures and Algorithm In java

Certificate Provider: Greatlearning

total duration is 3.2 hours.

Today I have completed 1.5hr of total 3rd session on you tube which is provided in this course only. As I completed this course there no certificate have been provide. I did this course for knowledge.

The screenshot shows a YouTube video player for 'Data Structures & Algorithms in Java - Session 3'. The video content features handwritten code for a Bubble Sort algorithm in Java. The code is as follows:

```
Time Complexity:  $O(n^2)$   
public void bubbleSort (int[] arr, int n) {  
    for (int i = n-1; i > 0; i--) {  
        for (int j = 0; j < i; j++) {  
            if (arr[j] > arr[j+1]) {  
                swap(arr, j, j+1);  
            }  
        }  
    }  
}
```

Below the code, there is a diagram of an array with elements 10, 20, 30, 40, 50, 60, 70, 80, 90, 100. The array is shown being sorted. The video player shows a progress bar at 1:12:58 / 1:14:14. The chat on the right shows a 'Top chat replay' with messages from viewers like ANIK JAIN, AKHIL MURIKIPUDI, and others. The video has 3,404 views and was streamed live on 26 Apr 2020.

```
1 Write a C program to remove specific characters in the String
2 #include <stdio.h>
3 #include <string.h>
4
5 int main()
6 {
7     char str[100], ch;
8     int i, len, j;
9
10    printf("\n Please Enter any String : ");
11    gets(str);
12
13    printf("\n Please Enter the Character that you want to Remove : ");
14    scanf("%c", &ch);
15
16    len = strlen(str);
17
18    for(i = 0; i < len; i++)
19    {
```
